DISCERNING THE VOICE OF GOD

The goal of this class is to build up our faith to hear the voice of God and to discern it from other voices. Through this interactive class, we will first lay a foundation in affirming that God does speak to us in the here and now, and then delve deeper into six questions that help us discern God's voice from other voices. The curriculum is primarily adapted from the Bible Studies for Life Series on "How to Discern the Voice of God."
